 - Helsinki, Monday June 8
 - Lifecycle: discovery, onboarding, etc.

One Data Model (OneDM)

WISHI collaboration

- OneDM working on [model definition format](#)
 - Common language to describe data/thing models from different ecosystems
- OneDM calls for liaison members
 - But good overlap with WISHI actives
 - Draft, specification, example models and issues openly available in [Github](#)

Past OneDM T2TRG/WISHI collaboration

- First OneDM T2TRG f2f Nov 2019 in Kista
- Next OneDM T2TRG f2f March 2020 in Vancouver
- Last two WISHI IETF hackathons
- T2TRG Summary meetings with OneDM presentations

T2TRG/WISHI OneDM topics?

- Research challenges and architectural considerations
 - Versioning/evolution of data models, and of the data model language
- IETF standardization potential
 - Elements and structure of standardization of the SDF language
- Implementations in hackathons
 - Data model translations
 - Semantic proxy prototypes
